Civil/Structural Entry Level Engineer

Description

Evergreen Engineering®, Inc. is currently seeking a full-time Civil/Structural Engineer who will provide design services for our rapidly growing list of clients.

We have offices in Atlanta, Georgia; Eugene, Oregon; and Everett, Washington. The position described here is for either our Eugene or Atlanta location.

This position will primarily include work on structural engineering and design for industrial buildings and non-building structures, foundations, and equipment support structures.

Responsibilities

General Responsibilities:

Develop structural designs and details for steel, concrete, wood, and masonry structures

Perform field investigation of existing conditions

Develop structural calculation packages for permitting and client review

Prepare design documents for drafting and oversee drawing development

Complete structural condition assessment reports

Qualifications

Experience and Skills:

3+ years of structural engineering work experience (industrial experience highly desired)

Strong understanding of the basic principles of the structural discipline

Familiarity with the International Building Code structural provisions and referenced structural standards (ASCE 7, AISC 360, ACI 318, etc.)

Ability to generate engineering sketches and supervise drawing generation

Effective communication and impromptu problem-solving skills

Education and Licensure Requirements:

Bachelor's Degree in Civil/Structural Engineering from an accredited college or university

Professional Engineering license or the ability to obtain within one year

Job Benefits

Schedule and Benefits:

Days and hours of work are Monday through Friday, with flexible schedule options. Initial preference to be in-office, with available telecommuting or hybrid option after adequate onboarding.

Full benefits package includes medical, dental, vision, life insurance, 401K, holiday pay, PTO, annual reviews, merit, promotion, year-end bonus, and a profit-sharing program.

Hiring organization

Evergreen Engineering, Inc.
