

HOG FUEL & BOILER

Project Examples

Charcoal Manufacturing

- Bark storage & reclaim
- Bark truck dumps
- Bark screening system
- Bark conveying and feed to dryer

Boise Cascade

- Waste wood conveying
- Bark hog installation
- Hog fuel storage, with distribution conveyors
- Underpile reclaim
- Hog fuel boiler feed system

Trus Joist

- Truck unloading system
- Distribution conveyor into storage building
- Underpile reclaim system
- Hog fuel boiler feed system

Snowflake White Mountain Power

- Boiler feed system for paper mill sludge & wood-fired 200,000 PPH BFB boiler
- Truck dump unloading system
- Hog fuel stack out & overpile reclaim system
- Paper mill sludge pressing & conveying

Dow Corning

- Hog fuel conveying system

Hampton Lumber

- Truck dump, reclaim hopper, and associated conveyor system

Rosboro Lumber

- Bark hog metering controls

Ampersand - Merced Power Plant

- Designed/built hog fuel screen and magnet system

Southwest Forest Products

- Hog fuel conveying
- Bark hog installation
- Storage & reclaim

Champion International

- Hog fuel storage bins
- Hog fuel conveyors
- Stoker reclaim

Simpson Timber

- Hog fuel conveyors
- Bark hog installation

Murphy Plywood

- Hog fuel reclaim system
- Dry/wet fuel mixing system
- Boiler feed system

International Paper

- Complete hog fuel system for bark-fired 120,000 PPH boiler

Confidential Client

- Modified hog fuel feed system to 250,000 PPH boiler
- Modified truck dump & hopper

Imperial Valley Resource Recovery

- Waste wood fuel system, including truck dump, material stack-out and reclaim, material screening and sizing systems, boiler infeed conveyors
