

Multi-Discipline Engineering

- ◆ Civil/Structural
- ◆ Mechanical
- ◆ Electrical, Controls, & Instrumentation
- ◆ Chemical, Process
- ◆ Environmental
- ◆ Architectural

Evergreen is a full-service consulting engineering company, with all engineering disciplines, serving the wood products industry since 1985. Evergreen has extensive experience with structural, engineered, and composite wood plants, ranging from numerous custom retrofit projects to complete greenfield plants. We have a highly qualified technical staff, including some of the leading experts in the industry, with hands-on operational experience in engineered wood products and panel plants as well as innovative process expertise.

We have significant greenfield and plant upgrade experience with oriented strand board since our company's founding, and continue to support this industry. The bulk of our engineering and operations experience has been with wood panel plants. Evergreen and its employees have worked for five of the top OSB-producing companies in the world. Our team can supply multi-discipline engineering for every stage of the OSB process throughout the plant. Evergreen is the most qualified and experienced engineering company with log handling, conditioning, and environmental systems for panel plants.

Evergreen offers the best possible range of knowledge and capabilities to address retrofit, expansion, and new construction for OSB projects.

We welcome your questions, and would be pleased to help with improvements and/or expansions to your facility.
